# Tastings FAQ:

**Do you offer a tasting?** YES! We want you to be confident in your choices.

**How much does a tasting cost?** If you choose to confirm your event, the cost of the tasting is included. However if you decide we are not the right fit, the cost is \$50 per person.

**How many guests can I have at my tasting?** Typically, tastings are designed for the couple alone. However, we can accommodate up to four people. Please notify us in advance if you plan to bring additional guests so we can plan for the extra meals needed.

**How do I book my tasting?** Tastings are available Monday to Friday between 11 am and 5:30pm and are to be booked in advance with your coordinator.

**What can I try on my tasting?** Think of your tasting as a trial run for your event. During the tasting you sample everything from the proposed menu. This is why having an accurate proposal that you are happy with (on paper) is so important. Tastings by Emelle's, showcase the food volume, (yes you receive full size portions), presentation, & flavour profile, based on the proposed budget.

**What are the goals of a tasting?** To make it perfect for you!

·**Adjusting flavors:** we can remove items that don't suit you or we can make nuance changes, like more or less spice. An advantage when everything is made from scratch.

·**Assessing food volume:** With full size portions you can determine if the quantity of food ordered is sufficient or if adjustments need to be made

·**Meeting the sales coordinator:** Tastings provide an opportunity to meet and discuss details with the sales coordinator, including the timeline for the day, venue logistics, and presentation expectations.

**Can I request certain dishes that aren't on the menu?** We will do our best to accommodate a couple's request for specialty items that are not on our menu. If you have a specific dish in mind, especially one that is specific to your culture or family's history, we recommend providing a recipe. Please note that requesting off-menu items may require more notice.

**Tasting tip:** Bring questions and don't be shy! We know this is a big decision and welcome open dialogue. We have years of experience in the industry and are eager to help. We can only provide the best solutions when we fully understand your needs.
